We are pleased to introduce the International Journal of Sustainable Applied Sciences (IJSAS), a scholarly platform dedicated to fostering research and innovation in sustainable applications across various scientific and technological disciplines. As the world faces pressing environmental and societal challenges, the role of applied sciences in promoting sustainability has become more significant than ever.

IJSAS serves as a vital medium for researchers, academics, practitioners, and policymakers to share cutting-edge studies, innovative methodologies, and practical solutions that contribute to sustainability in real-world applications. The journal encompasses a broad range of topics, including sustainable engineering, green technologies, renewable energy, environmental management, circular economy practices, and sustainable agriculture, among others.

Our mission is to bridge the gap between scientific research and practical implementation by providing a forum for high-quality, interdisciplinary contributions. Through this journal, we aim to facilitate knowledge exchange, inspire new ideas, and support the advancement of sustainable development across diverse fields.

We extend our sincere appreciation to the authors, reviewers, and editorial board members who contribute their expertise and dedication to ensuring the quality and impact of IJSAS. Their efforts are instrumental in making this journal a valuable resource for the global research community.

We look forward to fostering meaningful discussions and impactful research that drive the world toward a more sustainable future.

Happy Reading

Marisa Yunita, S.Pd, M.M, Universitas HKBP Nommensen
